Function Requirement 1

Users must be able to Like and Comment on a Recipe

Towards the bottom of the recipes page, there is a Like and Comment Section.
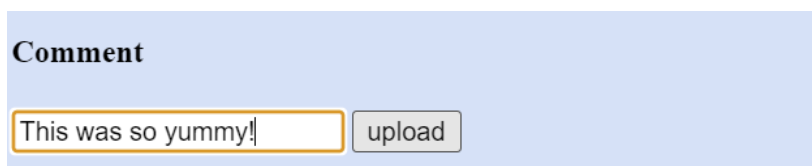

To Like a recipe, Click the button labelled "Like".

Like

[Like] 0

When this button is clicked, the number of likes will increment. This is shown to the right of the button.

Like

[Like] 1

To Comment on a recipe, write your comment in the text area. This text area is located beneath the word, Comment. Once you have finished typing your comment. Click the button labelled "upload". This is located to the right of the text area.

Comment

[This was so yummy!] [upload]

When the button is clicked, your comment will be added to the page. It is added below the text area.

Comment

[   ] [upload]

This was so yummy!

Function Requirement 2

Users must be able to tag photos to recipes

At the bottom of the recipe page, there is an Upload Photos section. Users can upload their photos the recipe and show their creations.

To upload a photo, type in the url of the photo into the text area that contains the placeholder "url". Once you have finished typing in the url, click to the "upload" button located to the right.

Once you have clicked the button, your photo will be displayed below.

Function Requirement 3

Users must be able to create a profile

At the Home Page, there is a section labelled Profile. This area contains a button called "Click to Edit Profile". Click the button and it will direct you to the Profile page.

At the Profile Page, there is a First Name input area and Last Name input area. Type your name in the text area and click the buttons "Save Data". When this button is clicked, your name will be saved.

Function Requirement 4

Users must be able to save recipes to their favorites

At the bottom of the Profile Page, there is a Saved Recipes section. This section contains a drop down menu and "Add recipe" button.

To save a recipe, click on the drop down menu and select the recipe you want to save. Once you have clicked on a recipe you want to save, hit the "Add recipe" button located to the right.

Once the button is clicked, it will add the recipe below.

Function Requirement 5

Users must be able to jump to different sections of content in a recipe.

Towards the top of the recipe page, there are links to each section of the recipe. The links are "Recipe Description", "Ingredients", "Steps", "Ratings", "Uploaded Photos". If a user wants to go directly to a certain area of a recipe instead of scrolling, they can click their desired link.

Pork Rib

Recipe Description Ingredients Steps Ratings Uploaded Photos

Once they click the link, the view of the page will move to that section.

Ingredients
